

Energy Saving Pond Pumps

Eco-X Pond Pumps

Fountain, pond and filter pumps

Our range of German built Messner pumps are of the highest quality available and includes versions suitable for fountains, waterfalls and features, and filter systems.

Eco X and Eco X Plus

Designed for the lowest possible power consumption, Eco X pumps are a very cost effective way to enjoy your pond with low running costs and engineered for long life and ease of service.

They are suitable for brooks, waterfalls, fountains and for water circulation or to operate filter systems.

Eco X Plus

High Flow, low head pumps designed for professional filter systems, giving maximum reliability and minimum running costs.

Pumps are serviceable and spare parts and a repair service are available.
